LABOR LOYALTY WEEK IN THE UNITED STATES

SUNDAY MARKED BY MANY DEMONSTRATIONS.

IN SUPPORT OF THE WAR

NEW YORK, February 11.—Patriotic demonstrations in more than 100 cities of the United States were held yesterday to start national labor loyalty week, "a campaign of the American alliance for labor and democracy." "To unite the working people of the country in support of the war."

Samuel Gompers, president of the American Federation of Labor and of the alliance, in a "message to America" calling attention to the purpose of national labor loyalty week, says:

"It will be observed by the working people of the United States as a week in which the active loyalty of labor is to be demonstrated in order that unity among all of our people may be obtained in the prosecution of the war."

To Spread Message.
"This week has been proclaimed as a week for labor loyalty demonstrations by the American Alliance for Labor and Democracy. In the more than 100 cities in which the alliance had local organizations, mass meetings and other demonstrations will be held. It will be the purpose of these demonstrations to spread the inspiring messages of America, to drive home the conviction that democracy must be completely victorious in this great struggle against autocracy, and that every lover of freedom must stand ready and willing to make the last sacrifices for the ideals of our great republic."

Lincoln's Birthday.
"On the anniversary of Abraham Lincoln's birth the message of the great liberator will be carried once more to our people gathered in mass meetings throughout the nation. The world holds no more inspiring message than that left to us by the noble Lincoln—a message of liberty, a message of sacrifice for our ideals, a message calling for a united nation in support of the maintenance of the principles upon which democracy is founded."

Double Allowance.
(Brooklyn Citizen)
"How do you like it, having to pay all money?"
"It ain't as bad as you'd think. I used to have to go to the bank to get my money, and now I have it left over every week."

TROOP TRANSPORTS UNDETECTABLE
Saunders Says Device Has Been Found and One Craft Already Equipped.

NO REASON FOR SECRECY

Member of Naval Consulting Board Declares U. S. Will Take Every Means to Protect Men.

NEW YORK, February 11.—Means have been found to make troop transports undetectable by submarines, according to a statement made by William L. Saunders, vice-chairman of the naval consulting board, in an address at a dinner of the University of Pennsylvania alumni in this city.

Mr. Saunders said that one of the ships recently commandeered by the government "now lies at an Atlantic port and in such shape that she can not be sunk by an exploding torpedo."

Enemy Should Realize.
"I can conceive of no reason why this information should be withheld," he added. "On the contrary I believe it is well that the enemy may come to realize that the time has been reached when American troop transports are ready for the transportation of our troops which that enemy can not sink. This ship may have a hole thirty or forty feet in diameter in its side and she will remain afloat. Such a hole would waterlog but one-tenth of the tonnage of the ship."

Mr. Saunders described in detail the plan to keep ships afloat after they had been torpedoed, and the manner in which it had been developed by William F. Donnelly, a New York naval engineer, working under authorization of the naval consulting board.

Safeguard for Lives.
"Of course it will take some time to equip similarly the large number of transports we have," continued Mr. Saunders. "It is my belief, however, that nothing will be left undone by the administration to safeguard the lives of large troop contingents to be moved across the Atlantic."

Mr. Saunders in a statement credited to him last May, asserted that a solution of the submarine problem probably had been found by the board and in the opinion of the board members the scheme as approved would put an end to the submarine menace. He did not enter into details. Other members of the board, including Thomas Robinson, its secretary, and Frank J. Sprague, a member of the committee on submarines, look issue with Mr. Saunders that the solution of the U-boat menace had been reached.

OFFICIALS ARE CONFIDENT.

Rapid Progress Made By Allies in Combat Against U-Boats.

WASHINGTON, February 11.—Announcement by Vice-Chairman Saunders of the naval consulting board that means had been found to make troop ships practically undetectable lends new meaning to the air of confidence with which both American and British naval authorities are facing their task of clearing the seas of U-boats. Recent statements by Admiral Jellicoe, formerly first sea lord of the British admiralty, by Secretary Daniels and other officials have indicated that a campaign has been mapped out and the instrumentalities developed, which are expected to curb if not eliminate the submarine entirely within the next few months.

Discussion of the devices developed is decried by officials here. Investigation of the experiments have been guarded closely. High officials have been free to assert privately, however, their belief that the U-boats would be checked sufficiently by early summer to insure a steady flow of American troops and supplies to Europe with few incidents such as that of the Tuscania to be expected.

Warning By Jellicoe.
Admiral Jellicoe went farther than any other official by predicting that the submarines would be killed by August. At the same time, however, he warned that heavy ship losses were to be expected up to that time. Secretary Baker has insisted before the senate committee that 1,000,000 American troops could be taken to France and kept supplied during 1918. His replies to questions as to the U-boat menace have indicated that there was some information as to the U-boat menace which he did not care to disclose.

Without disclosing any of the new inventions that may have been developed to meet the submarine menace, navy officials have pointed out that all of the lines of effort started when the United States entered the war are on the point of bearing fruit. Additional destroyers and patrol craft are beginning to come forward rapidly. In some cases more than a year's advance has been gained in the construction of destroyers. More heavily armed vessels, fitted with every device that has been evolved are being rushed to the support of Vice-Admiral Sims' flotilla.

Important Devices Found.
With the complete mobilization of all these agencies against an enemy already severely hampered by the skill and daring of American and British patrol fleets it is pointed out that greater repression of the submarines is certain to follow, even if no master weapon has been evolved. At the same time, however, it is evident, even without Mr. Saunders' statement, that various important mechanical devices have been brought to a high state of perfection and will play a large part in the warfare.

Destroyers equipped with depth bombs have been rated as the most efficient foe of the submarine. The number of destroyers, the effectiveness of the bombs used, and the means of hurling these charges have all been increased. Ways of detecting the hidden U-boat, increasing range also have been worked out. The technique of this latest phase of naval warfare has been perfected by the officers and men of the U-boat hunting fleets.

All of these things, supplemented by what they know of the devices evolved, which nothing has been said of, on the basis on which the officers here have said repeatedly that the U-boats would be curbed this year, probably this spring.

YANKEE GUNNERS THERE.

Exceed Records Made By French With Famous 75's in Action.

WASHINGTON, February 11.—Warm praise of the state of efficiency reached by American gunners in their training with the famous French seventy-five millimeter guns was received from a French artillery officer, who has just arrived in Washington to join an official mission. He said many of the American batteries have exceeded the best records made by the French gunners who have been using the seventy-fives since that weapon was adopted.

The officer described the work of one squad which several times fired thirty rounds a minute as being the subject of admiring comment through the French armies. Four men compose this squad, one working the breech and another the lanyard, while the other two were occupied entirely in passing ammunition and loading. So perfect were the movements of each member, the French officer declared, that it was impossible to distinguish the slightest variation in the intervals between each shot over a stretch of several minutes.

Gregory's Mother is Dead.
WASHINGTON, February 11.—Mrs. M. C. Gregory died at the home of her son, Attorney-General Thomas W. Gregory. She was more than eighty years old and had been ill for a month. The body will be sent to Columbus, Miss., where funeral services will be held Wednesday.

Hundreds and Hundreds and Hundreds, Fresh, Crisp, New Handkerchiefs

to be Placed on Sale for the Next Two Days

This is one of the most important events arranged for the month of February—and is without a doubt the largest handkerchief sale ever attempted by this department—

It includes handkerchiefs for men, women and children—handkerchiefs of shamrock lawn, cambric, batiste, linen, crepe de chine, plain handkerchiefs, embroidered handkerchiefs, handkerchiefs with fancy colored borders and scores of others.

And the low prices we have marked them—really in justice to yourself, you can't afford to miss this opportunity!

For Women

Sample Handkerchiefs, 17c, 3 for 50c—

Sheer shamrock lawn handkerchiefs embroidered in various patterns in colors and white. There are handkerchiefs in this lot that ordinarily would be priced as high as 35c.

25c Novelty Crepe de Chine Handkerchiefs, 21c

Pretty crepe de chine "kerchiefs" that women are so fond of. Some have one-fourth-inch hemstitched hems, others pretty colored borders.

Cambric and Batiste Handkerchiefs at 10c

These regularly sell for 12½c. All have pretty colored embroidered corners; some colored picot edges or narrow hems. Also to be found in this assortment are white batiste handkerchiefs with ¼-inch hemstitched hems.

Lawn Handkerchiefs at 7½c—

If we were to mark them at the regular selling price they would be 10c. This is a brand new lot, made with dainty colored or white embroidered corners.

New Spring Models in Wasson Special Corsets \$1 to \$3.50

They'll work wonders with your figure.

You'll like the way they fit and the shapely lines they possess—for no matter what the shortcomings of one's body—these new Wasson Special corsets will do away with them.

Medium and low bust styles in pink and white materials—some are heavily boned—others possess scarcely any boning at all. Back and front lace trims. \$1 to \$3.50.

—Corset dept., third floor.

Shamrock Lawn and Cambric Handkerchiefs at 5c

This lot of handkerchiefs has many different one-corner effects; some hemstitched hems and some colored rolled edges.

For Men

Linen Handkerchiefs at 17c, 3 for 50c—

Fine linen handkerchiefs in full sizes, made with narrow hemstitched hems. These regularly sell for 25c.

Irish Linen Handkerchiefs at 25c—

In the regular way these sell for 35c. These have one-fourth hemstitched hems, full size, fine quality.

Fine Cambric Handkerchiefs at 15c—

White cambric handkerchiefs—the kind that men always pay 19c for—made with one-fourth or one-half inch hemstitched hems—extra fine quality.

Full Size Cambric Handkerchiefs, 6c

These usually sell for 10c—made of an extra good quality of cambric, with hemstitched hems. Full size.

Children's Handkerchiefs at 4c

Lawn handkerchiefs with colored rolled edges with clever designs embroidered in one corner.

Boys' Handkerchiefs, 10c, 3 for 25c—

Fine cambric handkerchiefs with narrow hemstitched hems. Ordinarily these would sell for 12½c.

Boys' Fancy Silk Handkerchiefs, 21c—

The regular selling price of these is 25c—fancy colored border handkerchiefs with one-inch hemstitched hems. All splendid patterns.

—First floor—Wasson's.

Special Offerings From the Linen Section for Wednesday's Selling!

Half-linen Towels at 29c or \$3.25 a dozen—Regular size, hemmed, plain or fancy borders.

Pure Linen Pattern Cloths at \$4.85—Size 2x2 yards, several good patterns from which to select.

Colored Mitheline Satin Bed Sets at \$7.48 a set—Extra large size (90x100), come in pink and blue. Set consists of spread and bolster.

Good Cotton Huck Towels at 19c, or \$2.05 a dozen—Made with red borders, size 18x28.

Large Spongy Bath Towels at 29c, or \$3.25 a dozen—Absorbent, full bleached, size 22x42.

18c Bleached Irish Cotton Crash at 13½c a yard—Made in Ireland, fully bleached and washed, plain or with fancy borders.

—Linen section, first floor.

Our Collection of New Spring Millinery at \$10

Fashion, as usual, has created the most charming hats, in all black, for spring wear, and the one in the above sketch is a good example of how striking of line they are.

Made with a shiny lisere facing and crown; upper brim of black satin over which is silk net—it would be trimmings if it weren't for a wing placed directly in back.

Also a wonderful collection of \$10 hats in the most fascinating color combinations, in tailored, semi-dress and dress hats.

Come in and spend a few moments in our millinery department tomorrow. We know you'll enjoy trying on these new creations.

—Millinery dept., third floor.

H.P. Wasson & Company

The Food Administration Says:
HOWEVER generous our giving, there confronts France and England and Italy the blackest and most agonizing winter they have ever had to endure. Any little sacrifices we can make will seem petty in comparison.

GERMAN WRITER SAYS U-BOATS HAVE FAILED

CENSOR PERMITS PUBLICATION OF ARTICLE.

ATTACK ON VON TIRPITZ

LONDON, February 11.—An article attacking the submarine warfare, which was suppressed by the German censor last October, has now been published by the German press. The article was written by Dr. Struve, a progressive member of the Reichstag, who declared that the submarine war is a failure and discusses "who was responsible for the unrestricted submarine warfare."

warfare agitation and for the statement that England could be forced to her knees within six months."

Dr. Struve asserts, after quoting a variety of witnesses, that the whole agitation was conducted and engineered by Admiral von Tirpitz after the latter's retirement. The article then develops into an attack on Von Tirpitz and closes with the assertion that the submarine warfare might have been a success except for the fact that Von Tirpitz, while in office had neglected to build submarines in sufficient numbers to insure success.

"That was the reason," adds the writer, "that unrestricted submarine warfare was always opposed by Von Capelle, minister of the navy, and the Imperial chancellor, Von Bethmann Hollweg."

Papers Increase Price.
WASHINGTON, February 11.—Both Washington evening newspapers, the Evening Star and the Washington Times, have announced that beginning February 12, they will increase their price from 1 to 2 cents.

the newspapers of practically all cities of considerable size throughout the country," their announcement says, "and the few remaining 1-cent papers will doubtless find an increase in price inevitable."

SHOOTS HIMSELF IN HEAD.

Man of Sixty-five, Who Had Been Despondent, Ends Life.

Samuel Spivack, age sixty-five, committed suicide in his room at 313 Maple street, early Sunday, by shooting himself through the right temple with a revolver. The body was found several hours later by Mrs. Dora Segal, at whose home Spivack had been rooming.

Mrs. Segal told Dr. Richard A. Poole, Coroner, and Sergeant Thomas and a squad of police, who investigated, that she heard a shot fired about 2 a. m. Sunday morning, but that she was afraid to go downstairs to see what had happened. She did not investigate the shooting until about six hours later. Persons who roomed at the house said Spivack had been there about a month. They said he had been despondent be-

cause of ill health. Papers found in Spivack's pockets show that he formerly operated a second-hand clothing store in Henderson, Ky. He is said to have two sons in the army and two daughters living in Henderson. The body was sent to the city morgue.

NO STANDARD RECEIPT.

Government Merely Specifies Form Content of "Victory" Bread.

WASHINGTON, February 11.—No standard receipt for Victory bread will be issued, either for commercial bakers, hotels, restaurants and public eating places or for households which bake their own bread, according to an announcement of the United States food administration today. The only requirement is that the bread must contain not more than 80 per cent of wheat flour, the remaining 20 per cent to consist of cornmeal, corn flour, rice or rice flour, potato flour or any other cereals recommended by the food administration.

The announcement pointed out that Victory bread is appropriate for consumption in public eating places on

wheatless Monday and wheatless Wednesday, and at wheatless meals every day in the week, where it is not practicable to make an even larger saving of wheat by serving breads made entirely of other cereals.

The administration also notified shipowners and charterers that all vessels abroad which as much as three barrels of flour is used each month will be required to take out bakers' licenses. This, it was stated, would permit them to buy flour on the same basis as hotel and general bakers.

The food administration announced today that dealers in cheese will be allowed to carry it in cold storage through the periods of scant or no production. It is ruled, however, that no cheese may be kept in storage after the next production season opens. Only in special cases, the announcement said, will permission be given to carry cheese beyond the heavy production season.

To Relieve a Cold is One Day
Take LAXATIVE BROWN QUININE (Tablets). It stops the Cough and Headache, and works off the Cold. E. W. GROVE'S signature on box. 30c—Adv.

German Press Gloating

AMSTERDAM, February 11.—German newspapers are gloating over "the psychological effect" which they expect the sinking of the Tuscania must produce in America.

The Koelnische Volks Zeitung says "sundry American vessels, some with munitions and perhaps a small number of soldiers, have been sunk before, but so far as we know this is the first case of a big transport with a considerable number of troops aboard falling victim to our U-boats. Maybe large sized transports have never or rarely so far crossed, for the American forces in France are not yet very large."

"As such vessels must be conveyed with great care our U-boats' achievement is all the more remarkable and gratifying."

The Berlin Hitting an Zeitung makes a similar comment and rejoices that so much war material was lost, and the rescue of our soldiers will not be immediately available for service.
